**DNA Replication, Transcription, Translation, and Mutation Worksheet**

Cystic Fibrosis Gene: When both copies of this gene are mutant, individuals have lung and kidney problems.

You will be able to write DNA sequence for the complementary strand (1).  
You will be able to write the RNA and protein sequence (2 & 3).  
You will be able to note the consequence of each DNA mutation for the protein.

The National Investigation Office launched a probe in the deaths of high-profile prisoners, including the conviction and the case of Lima, witness of Jaybee Sebastian, due to Covid-19. In particular, these are the case of people who were accused of atrocious crimes, but finally condemned by non-atrocious crimes. Both students were brutally murdered. The revised guidelines specifically declared that the convicts of atrocious crimes are not eligible to benefit from the law. "We are probably looking another case here of erroneous application or abuse of the law of GCTA, which is unfortunate, as it undermines the same wisdom and healthy philosophy behind said law, a tool for restorative justice and is intended that They only deserve PDLs. Á ç said á, - de Lima in a statement, reacting in the early version of Pemberton who killed Transgender Jennifer Laude. PDL launches retracted, put on Limbo at his sixth year of implementation in 2019. More than 22,000 prisoners had benefited from the GCTA Law; of these, 1,914 were convicted of stunned crimes. Joseph Scott Pemberton to walk more early than the end of his prison sentences. According to the audit report, the Locator administration put the blame to the controversy of GCTA: Á ç á, - á "Drowd priority and consideration of projects on the delivery of medicines to PDL were not performed due to GCTTA FIASCO that turned out to be a problem Onal ".
